CARMEN

We are proud to introduce our specially designed traditional and chic tiles: CARMEN. This new series offers amazing wall & floor decoration opportunities with its 6 colours and 4 different sizes - all of them are porcelain tiles.

Carmen was designed with the desire to make special any atmosphere it is present, tiles must be the center of attention. They are small in size but have a strong visual impact. Carmen is mainly balanced by the contrast between the handcrafted appearance and its shiny effects, that are both playful and elegant. In noisy times, the true privilege is being who you are. Remember your own identity!
